Subpart C—Administrative Provisions

§ 45.21 Alternate methods or procedures.

A manufacturer, on specific approval by the appropriate TTB officer as provided in this section, may use an alternate method or procedure in lieu of a method or procedure specifically prescribed in this part. The appropriate TTB officer may approve an alternate method or procedure, subject to stated conditions, when he finds that:

(a) Good cause has been shown for the use of the alternate method or procedure.

(b) The alternate method or procedure is within the purpose of, and consistent with the effect intended by, the specifically prescribed method or procedure, and affords equivalent security to the revenue, and

(c) The alternate method or procedure will not be contrary to any provision of law, and will not result in an increase in cost to the Government or hinder the effective administration of this part.

No alternate method or procedure relating to the giving of any bond or to the assessment, payment, or collection of tax, shall be authorized under this section. Where a manufacturer desires to employ an alternate method or procedure, the manufacturer must submit a written application to the appropriate TTB officer. The application shall specifically describe the proposed alternate method or procedure, and shall set forth the reasons therefor. Alternate methods or procedures shall not be employed until the application has been approved by the appropriate TTB officer. The manufacturer shall, during the period of authorization of an alternate method or procedure,

comply with the terms of the approved application. Authorization for any alternate method or procedure may be withdrawn whenever in the judgment of the appropriate TTB officer the revenue is jeopardized or the effective administration of this part is hindered. The manufacturer shall retain, as part of his records, any authorization of the appropriate TTB officer under this section for three years following the close of the calendar year in which the operation under such authorization is concluded.

[Redesignated by T.D. ATF-469, 66 FR 56758, Nov. 13, 2001, as amended by T.D. ATF-472, 67 FR 8880, Feb. 27, 2002]

§ 45.22 Emergency variations from requirements.

The appropriate TTB officer may approve methods of operation other than as specified in this part, where he finds that an emergency exists and the proposed variations from the specified requirements are necessary, and the proposed variations:

(a) Will afford the security and protection to the revenue intended by the prescribed specifications.

(b) Will not hinder the effective administration of this part, and

(c) Will not be contrary to any provision of law.

Variations from requirements granted under this section are conditioned on compliance with the procedures, conditions, and limitations set forth in the approval of the application. Failure to comply in good faith with such procedures, conditions, and limitations shall automatically terminate the authority for such variations and the manufacturer thereupon shall fully comply with the prescribed requirements of regulations from which the variations were authorized. Authority for any variations may be withdrawn whenever in the judgment of the appropriate TTB officer the revenue is jeopardized or the effective administration of this part is hindered by the continuation of such variation. Where a manufacturer desires to employ such variation, the manufacturer must submit a written application to the appropriate TTB officer. The application shall describe the proposed variations and set forth the reasons therefor. Variations shall
